Pool & Spa Equipment

Product Features

Deliver superior ultra clear water

The Galaxy Multi-Element Cartridge Filter is designed to be the best in its class. Adopting the latest technology and constructed with non-corroding and durable materials, the Emaux Galaxy Cartridge Filter has a bigger filter area than most models on the market. The high capacity tank partnered with the advanced multi-element raises hydraulic dirt-catching performance to new levels. Due to being eco and user friendly, it's the ideal choice for residential and commercial pools.

Product Video

User friendly

- Indicative pressure gauge tells you when to service
- Optional removable, easy-grip handle
- Knee-height tank base facilitates easy cartridge replacement

Trouble-free maintenance

- 3-session clamp kit allows removing and installing the top tank quickly
- Large water drain makes fast, easy winterisation and simple cleaning and rinsing with a garden hose.

Eco-Friendly

Multi-element provides an enormous surface area to block more dirt thus require less cleaning. Also, no backwashing is needed like sand filters. It can save a large amount of water every year.

NOTE:

Based on Industry standard:

1. For public pools, the maximum flow velocity is 0.375 GPM/ft², with a maximum flow rate of 150 GPM.

2. Determined by pump size and piping system hydraulics; 2" piping is recommended for flow rates equal to or greater than 90 GPM (341 LPM).

Cartridge Filter Element:

Code	Model (Standard)	Code	Model (Anti-microbial Element)	No. of Element	H mm	I mm	Micron µm	Fold Number
