

PowerFlo II[™]

SELF-PRIMING MEDIUM HEAD
POOL PUMP SERIES

Reliable performance and quiet operation.

The latest Hayward Pump in a wide range. This small pump is ideal for small pools, above-ground pools, solar heating and narrow technical rooms.

Small in size, PowerFlo II will win you over with its Made in Hayward manufacture and its exceptional performance. Boasting a 1.1 Litre pre-filter basket and a clear, 1/4 turning cover this unit is very easy to maintain. With 4 models to choose from, it is one of the best in its category.

ABOVE-GROUND POOL PUMP SERIES

The PowerFlo II is a versatile, self-priming pump designed to meet the varying specifications of above-ground and in-ground swimming pools and solar heating applications.

The Power-Flo II incorporates features usually found only on higher priced in-ground pumps such as self-priming ability, a large 1.1 Litre strainer basket, a heavy duty motor with stainless steel shaft, and a quick-release "see-thru" strainer cover.

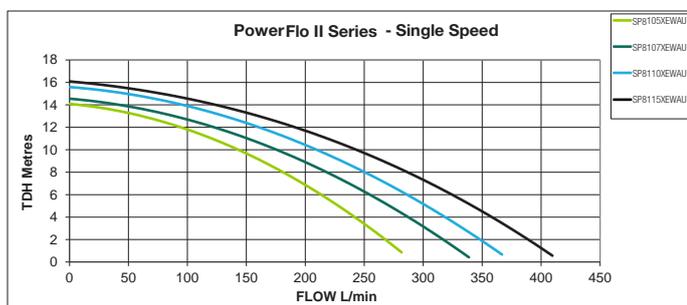

Durable and economical, the Power-Flo II continues to set the standard for value and performance for above-ground pumps.
